

Container/Vehicle Packing Certificate

It is hereby declared that the undersigned has visually inspected:

Type: Container
 Vehicle

Container/Vehicle Number:

Company Name:

Time:

Location:

and certifies that:

- The container was clean, dry and apparently fit to receive the goods.
- If the consignments include goods of class 1, other than division 1.4, the container is structurally serviceable.
- No incompatible goods have been packed into the container, unless approved by the competent authority.
- All packages have been externally inspected for damage and only sound packages have been packed.
- Drums have been stowed in an upright position, unless otherwise authorized by the competent authority.
- All packages have been properly packed and secured in the container/vehicle.
- When materials are transported in bulk packaging, the cargo has been evenly distributed in the container/vehicle.
- The container/vehicle and the packages therein are properly marked, labeled and placarded. Any irrelevant marks, labels and placards have been removed.
- When solid carbon dioxide (CO₂ — dry ice) is used for cooling purposes, the freight container or vehicle is marked or labeled in a conspicuous place, e.g. at the door end, with the words: "DANGEROUS CO₂ — GAS (DRY ICE) INSIDE, VENTILATE THOROUGHLY BEFORE ENTERING."

The dangerous goods declaration required in the International Maritime Dangerous Goods Code (IMDG Code) has been received for each dangerous goods consignment packed in the container.

By submitting this form, I am verifying that all the above information is correct.
